

It has come to my attention that the FCC is considering taking K-Love off the air. For anyone who listens to the station, this is unthinkable. The music that comes through on K-Love is completely unlike anything else that can be found on a radio dial. It blends mellow, modern rhythms with beautiful inspiring Christian lyrics.

No one who has ever heard K-Love can deny that it is anything but "positive and encouraging." To remove it from the airwaves would not only make it more difficult for listeners to get through their day, but it would be an enormous slap to the Christian community. Please do all in your power to prevent this catastrophe from taking place.

Signed,
Sarah Andrew
